Hello, Feed a Hungry Child Donors and Volunteers,

We cannot thank you enough for your incredible support that you give week after week to the children and students we serve in our Pickens County Schools. Last month we averaged 781 backpacks of food per week to students. We cannot do this without your help! Our students are being taught by teachers and administrators that care about them. We are thankful for a great school district and other private schools who are caring for our children week after week. Thank you again for your help as you volunteer and support Feed a Hungry Child. Nothing is more important than helping children in need.
Have a great day!
